Professional Experience

SR. Data Governance Analyst Jan 2024 – Aug 2026

Grupo Vazquez - Ueno (Holding-Bank)

- Conducted a feasibility study to ensure alignment with organizational needs, addressing critical shortcomings in the legacy catalog that impacted user adoption.
- Presented a comprehensive assessment to the CDO, benchmarking the legacy system against OpenMetadata with data-driven evidence and strategic conclusions.
- Implemented OpenMetadata as the cross-company Data Catalog: Managed deployment, data population, communication, and monitoring.
- Conducted Data Catalog use-case workshops tailored to specific Data User personas.
- Defined Data Roles and Responsibilities: Developed RACI matrix for the data lifecycle and established role-compliance metrics.
- Evangelized Data Quality value and Federation capabilities across multiple companies within the holding.
- Streamlined onboarding processes and data standards for Data Lake ingestion.
- Established metadata guidelines focused on Data Quality and Banking Compliance.
- Developed a Data Governance Dashboard to track KPIs for tool usage, metadata coverage, and data identification.
- Implemented a Data Domain Taxonomy to enable decentralized data practices and developed roadmaps for Data Mesh architecture.

SR. Data Governance Analyst Jul 2023 – Dec 2023

COA Consulting (for Grupo Macro Bank)

- Supported the development and cultural transformation for Data Management policies and standards.
- Assisted in operational workflows to streamline Data Discovery, cataloging, and data classification.
- Conducted a Data Catalog tool assessment tailored to organizational requirements and business needs.

SSR. Data Governance Analyst Jan 2022 – Jul 2023

CoreBI (for YPF - Oil & Gas)

- Developed corporate Data Governance processes and Metadata Management.
- Collaborated on data population for Data Catalog and Lineage management tools.
- Provided support for Informatica Data Governance & Catalog (IDGC) tools (Catalog, Glossary, Lineage, Stewardship, etc.).
- Supported Data Literacy initiatives and the adoption of Governance software.
- Developed and maintained a comprehensive data knowledge base on Sharepoint, mapping data assets to business concepts to streamline data governance operations

Lead Data Analyst Aug 2019 – Jan 2022

Teleperformance

- Coordinated resources to meet internal and external client demands for Teleperformance Chile.
- Established Business Intelligence processes and demand management frameworks.
- Facilitated staff training in technical competencies and workflow management.
- Led the team's transition from traditional Reporting to Business Intelligence.
- Implemented Lean practices and Agile methodologies.

Senior Business Intelligence Analyst Mar 2017 – Aug 2019

Full-time — Tucumán, Argentina

- Managed Data & Analytics initiatives and database administration.

Data Analysis & Planning Aug 2016 – Mar 2017

Full-time — Tucumán, Argentina

- Data analysis performed to maximize results across strategic KPIs.
- Performed daily performance monitoring and activity follow-up.
- Designed sampling plans and managed task compliance for a staff of 41+ people in 8 different departments.
